

## SIGN PERMIT PROCEDURES

1. Submit completed Sign Permit application as well as six (6) copies of detailed drawings of the proposed sign. The drawings must show, **in complete detail**, the size of the sign, both height, width, and depth of letters, as well as the total square footage of the sign; support mechanism; color of sign, type of sign, and location of the sign. The application must also be accompanied by a letter of approval from the property owner/lessor or a signature from the property owner/lessor on the attached application. The non-refundable fee of \$75.00 for a permanent sign must accompany the application.

**If the application is not completed in its entirety and the required drawings do not contain all of the above noted information, the application will be deemed incomplete and will be returned.**

2. The Department of Public Works will review the proposed sign. When this review has been completed, City staff will notify the applicant. In the event the proposed sign does not comply with City ordinance, the applicant may request a variance. A sign variance(s) can only be granted for the size, location, and number of signs. Sign variances will not be granted for prohibited signs. Further information concerning variance procedures will be provided to applicant.
3. After approval is granted by the City of Crestwood, it may be necessary for the applicant to obtain an electrical permit and/or building permit from St. Louis County Department of Public Works before the sign can be installed.
4. All questions should be directed to the Department of Public Works by calling the Project Manager at 314-729-4724.
5. **A Contractor's Business License is required for all contractors that do not have a CRESTWOOD BUSINESS LICENSE.**
